

It is with great please that I write this letter of recommendation for Mr. Ronald Aw of **Ritchie Creative Design** acted as our Interior Designer providing guidance on all our interior decor matters relating to renovation we undertook during December 2015. He provided invaluable guidance in regard to color schemes, furniture selection, painting, lighting and accessories.

We are ecstatic about the results achieved. It is a true testament to his talent that relatives, friends and guests who visit our renovated home are in awe of the renovation done. It was a pleasure to work with Ronald. While he has definite opinions in regard to all decor related issues he LISTENS to the client and works hard to understand the needs of the client. He is a great person and very comfortable to work with.

A budgeted investment was committed to the renovation including the interior design and the decor package. So with the budget amount, Ronald always looked for good value when making product recommendations. The desire to provide good value to his clients was also apparent in his time management and record keeping on the project. He was very professional and we always felt that we were getting good value for his consulting fees.

In summary, I would recommend **Ritchie Creative Design** to handle your interior decor project. Should you wish to discuss this recommendation in more detail please contact the undersigned.
